➤ **Cheapoair.com**

Sr. Software Engineer (Team Size-20)
Fareportal India Pvt. Ltd.

CheapOair is an online travel agency that offers vacation packages to destinations in North America, Central and South America, Europe, Asia, the Pacific, the Indian sub-continent and Africa. The company has localized budget travel sites for the U.S., Canadian and British markets.

Technology Used: MVC 4.0, JQuery, C#, Wcf, Web Api, SQL Server 2008

➤ **OLTP- AIRCOSTA.IN**

Sr. Software Developer (Team Size-12)
Amadeus India IT Services.

The Idea behind developing this application is to provide to Online Search Flight Availability, Booking Flight for Customer. This Travel Package System is divided into various modules for example:-

- Admin management
- Search Flight management
- Booking Flight management
- Booking Management

Roles and Responsibilities

- Designed user interfaces and implemented application logic in ASP.Net with c#, JQUERY, Xml, XSLT.
- Designed and Developed **Web Forms** using various **controls** generated dynamically.
- Designed and Developed **User controls**.
- Used **ADO.Net** extensively for database interactions using **Data Reader, Data Adapter and Datasets**.
- Involved in coding and testing application programs.

➤ **OLTP- BB AIRWAYS.COM (BB AIRWAYS Nepal)**

Sr. Software Developer (Team Size-12)
Amadeus India IT Services.

The Idea behind developing this application is to provide to Online Search Flight Availability, Booking Flight for Customer. This Travel Package System is divided into various modules for example:-

- Admin management
- Search Flight management
- Booking Flight management
- Booking Management

Roles and Responsibilities

- Designed user interfaces and implemented application logic in ASP.Net with vb.net, JQUERY, Xml, XSLT.
- Designed and Developed **Web Forms** using various **controls** generated dynamically.
- Designed and Developed **User controls**.
- Used **ADO.Net** extensively for database interactions using **Data Reader, Data Adapter and Datasets**.
- Involved in coding and testing application programs.

➤ **OLTP- AIRMANTRA.COM (Religere voyages)**

Sr. Software Developer (Team Size-12)
Amadeus India IT Services.

The Idea behind developing this application is to provide to Online Search Flight Availability, Booking Flight for Customer. This Travel Package System is divided into various modules for example:-

- Admin management
- Search Flight management
- Booking Flight management
- Booking Management

Roles and Responsibilities

- Designed user interfaces and implemented application logic in ASP.Net with vb.net, JQUERY, Xml, XSLT.
- Designed and Developed **Web Forms** using various **controls** generated dynamically.
- Designed and Developed **User controls**.
- Used **ADO.Net** extensively for database interactions using **Data Reader, Data Adapter and Datasets**.
- Involved in coding and testing application programs.

➤ **Fare Tracker (client: DGCA)**

Sr. Software Developer (Team Size-8)
Amadeus India IT Services.

The Idea behind developing this application is to provide to track and scrapping fare of Airline.

Roles and Responsibilities

- Designed user interfaces and implemented application logic in **MVC 2.0** with C#, JQUERY.
- Used **ADO.Net** extensively for database interactions using **Entity Framework, Linq**
- Involved in coding and testing application programs

➤ **Self Booking Tool (SBT)** (client: - Sharmila Travels, Doctor Reddy Laboratory, ksk)

Sr. Software Developer (Team Size-8)
Amadeus India IT Services.

The Idea behind developing this application is to provide to create Holiday package, search package for Customer. This Travel Package System is divided into various modules for example:-

- Admin management
- Booking Management

Roles and Responsibilities

- Designed user interfaces and implemented application logic in ASP.Net with vb.net, JQUERY, Xml, XSLT.
- Designed and Developed **Web Forms** using various **controls** generated dynamically.
- Designed and Developed **User controls**.
- Used **ADO.Net** extensively for database interactions using **Data Reader, Data Adapter and Datasets**.
- Involved in coding and testing application programs.

➤ **TPS- Mena (Middle East and North Africa)**

Sr. Software Developer (Team Size-8)
Amadeus India IT Services.

The Idea behind developing this application is to provide to create Holiday package, search package for Customer. This Travel Package System is divided into various modules for example:-

- Admin management
- Holiday Package management
- Inventory management
- Holiday Rate management
- Booking Management

Roles and Responsibilities

- Designed user interfaces and implemented application logic in ASP.Net with vb.net, JQUERY, Xml, XSLT.
- Designed and Developed **Web Forms** using various **controls** generated dynamically.
- Designed and Developed **User controls**.
- Used **ADO.Net** extensively for database interactions using **Data Reader, Data Adapter and Datasets**.
- Involved in coding and testing application programs.

➤ **OLTP- RES4.COM**

Sr. Software Developer (Team Size-10)
Amadeus India IT Services.

The Idea behind developing this application is to provide to Online Search Flight Availability, Booking Flight for Customer. This Travel Package System is divided into various modules for example:-

- Admin management
- Search Flight management
- Booking Flight management
- Holiday Rate management
- Booking Management

Roles and Responsibilities

- Designed user interfaces and implemented application logic in ASP.Net with vb.net, JQUERY, Xml, XSLT.
- Designed and Developed **Web Forms** using various **controls** generated dynamically.
- Designed and Developed **User controls**.
- Used **ADO.Net** extensively for database interactions using **Data Reader, Data Adapter and Datasets**.
- Involved in coding and testing application programs.

➤ **Yepme- www.yepme.com**

Software Developer (Team Size-4)
Sirez info system

The Idea behind developing this application is to provide an interactive online comprehensive collection of finest menswear and accessories, office formals, smart casuals, party wear and street casuals for day long, all round confidence. This E-commerce portal is divided into various modules for example:-

- Admin management
- Category Listing management
- Product management
- Shopping Cart management

Roles and Responsibilities

- Designed user interfaces and implemented application logic in ASP.Net with C#.
- Designed and Developed **Web Forms** using various **controls** generated dynamically.
- Designed and Developed **User controls**.
- Used **ADO.Net** extensively for database interactions using **Data Reader, Data Adapter and Datasets**.
- Involved in coding and testing application programs.

➤ **App.m-campaigner.in**

Software Developer (Team Size-4)
Sirez infosystem

App-w.campaigner.in is SMS services providing API for client which send online SMS.

Roles and Responsibilities

- Designed user interfaces and implemented application logic in **MVC 2.0 with C#, WCF, JQuery, SQL Server 2005**.
- Designed and Developed Web Forms using various controls generated dynamically.
- Designed and Developed User controls.
- Used ADO.Net extensively for database interactions using Linq to SQL(dbml) Involved in coding and testing application programs.

PERSONAL DETAIL

Date of Birth : 01-04-80
Father's Name : Sarwyogi Sharma
Marital Status : Married
References : Would be furnished upon request
Place : New Delhi
